

Make Your Own Museum

This Easter why not visit the best museum in the world... your home!

While you're stuck indoors delve into your collections, sift through photographs, find your first bear or investigate the junk drawer.

It's easy to do, just pick 5-10 objects and follow these simple steps.

When you have set-up your museum, create and deliver a tour like our Interactors for others in your home, film your tour or take pictures of your objects to share with us and others online!

SHEFFIELD
INDUSTRIAL
MUSEUMS TRUST

KelhamIslandMuseum

@KelhamIsland

LOOK

Look at each object and check it. Is it...

Brand New | Used – Good | Tatty

Where did your object come from and how old is it?

CREATE

Create a title and write a bit about it (100ish words). We call this 'Interpretation'. For example:

Title: *Bertie – A teddy bear from Granny, 2010*

Interpretation: *Bertie was made by Granny Jones in September 2010 for her granddaughter, Lucy's first birthday. Bertie has been knitted using wool. Bertie is used for cuddles, tea parties and sleeping. Bertie was once lost on a holiday in Cornwall for two hours when Lucy went to play in the sea with Dad. Luckily, Mum found him half buried on the beach. Bertie is on loan to Hayes Home Museum from Lucy Hayes.*

DISPLAY

Display your objects with their interpretation.

Pick a room in your house to be the gallery (ask a grown-up to help with this). You could protect delicate objects with a 'case' - a see-through plastic box works well!
